TITLE : VEHICLE FOR COFFIN
TRANSPORTATION TO SERVE ALSO
AS SPACE FOR FUNERAL SERVICE

ABSTRACT : PURPOSE: To provide a vehicle which serves for transportation of a coffin and also a space to make funeral service.

CONSTITUTION: A vehicle admits a coffin 11 to be put in and carried out when the rear doors 4 are opened and also provides a space for funeral service by itself if the side doors 3 are left open. An organic combination of the rear doors and side doors in this fashion enables capability of functioning in two different services, whereby the coffin carrying operations are reduced to a great extent.
